## PRODUCT DESCRIPTION

Incorporate elegantly lit internal channels into your walls with the SULCUS gypsum cove. Designed for mounting on 2x3 inch joists or studs, it seamlessly aligns with 5/8 inch gypsum panels, requiring only some drywall tape and compound for a perfect finish. Additionally, this gypsum cove can be treated with primer and painted, similar to standard wall surfaces. Once painted to complement your interior design, relish in its sleek appearance and the impressed reactions it garners.

FEATURES

- Architecturally designed shape in extruded polystyrene foam with high R-factor and fiberglass-reinforced exterior, finished in primable, paintable white plaster.

- Compatible with standard 5/8in. gypsum panels for flush installation, over 2x3in. wall/ceiling beams

- Direct fit for the 84 and 85 profiles in ALCOA 6063-T5 aluminum alloy for superior heat dissipation

- Suitable for LED engines up to 14mm wide

- Sold in 8-foot (2.4m) sections.

- 5 Years warranty.

GYPSUM

Available in straight section of 8 feet
(96 inches/2.4 m).
