

TECHNICAL DRAWING

DESCRIPTION

Transform your home into a smart one with the 4" LED RGB recessed light fixture. The lighting fixture **uses your existing WiFi network**, with no hub or bridge required. Simply install the lighting, download the BAZZ Smart Home app (iOS and Android), and enjoy complete control!

Control the lighting through your smartphone, or connect with Amazon Alexa or Google Assistant to use voice commands. Turn lights on and off, adjust brightness, choose from millions of different colours, and create dynamic light routines. Anytime, anywhere.
