## **BUBBLE HARMONY LED MIRROR**

LCMIR-BUB-H-\*

#### **COLOR RENDERING INDEX**

The color rendering index (CRI) of a light source is a quantitative measure of its ability to reproduce the colors of various objects faithfully in comparison with an ideal or natural light source.

In general terms, CRI is a measure of a light source's ability to show object colors "realistically" or "naturally".

We only use LED CRI 90+.

#### **COLOR TEMPERATURE**

We offer 2 different light colors for our mirror.

**6000K:** This pure white light is the most popular choice for makeup application and hairstyling, providing a brightness that is 15% greater than that of the 3000K light. Approximately 85% of our customers prefer the 6000K setting.

**3000K:** This warm white light has a soft, yellow hue, creating a cozy atmosphere.

#### **INSTALLATION & AFTER CARE INSTRUCTIONS**

#### Installation:

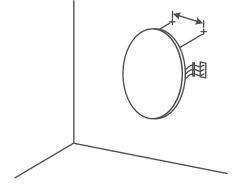

- All our LED mirrors have been independently tested for compliance with electrical equipment (safety) regulations.
- All illuminated and backlit mirrors are IP44 rated.
- Illuminated mirrors have been designed and independently tested for compliance to electrical equipment (safety) regulations, and are UL Certified.
- LEDs have a life expectancy of 120,000 hours of continuous use. All LED light fittings are replaceable and are available through our customer service.
- IMPORTANT: Always switch off the electrical supply at the mains during installation and maintenance.
- It is recommended that fuse is withdrawn or circuit breaker switched off before installation begins.
- Fitting in Bathrooms is subject to all regulations. It is not suitable for product installations in Saunas, Steam Rooms, or shower cubicles and it is recommended for permanent installation.

#### Care Safety:

- Wear suitable eye wear protection when drilling. Use caution when using power tools near water, beware of hidden cables or pipes.
- Take care if drilling on tiled surfaces in case the drill slips. A piece of masking tape applied to wall before marking out fixing holes will stop drill from moving.

#### Cleaning & Maintenance:

- It is recommended that the unit is cleaned with a soft, dry, non-abrasive cloth when turned off.
- Never use cleaning agents or abrasive material on any type of surface finish.
- Do not strike glass components with hard or pointed items.
- Do not place very hot or cold items against or close proximity to glass surfaces.

#### 120V DIMMABLE LED DRIVER INCLUDED

1-Decide on wall positional placement.

2-Prepare & install wall hooks measured to distance between mirror's

3-Match & attach 3 electrical wires from mirror to home electrical wires: Live to Live, Ground to Ground, Neutral to Neutral.
