

TECHNICAL DRAWING

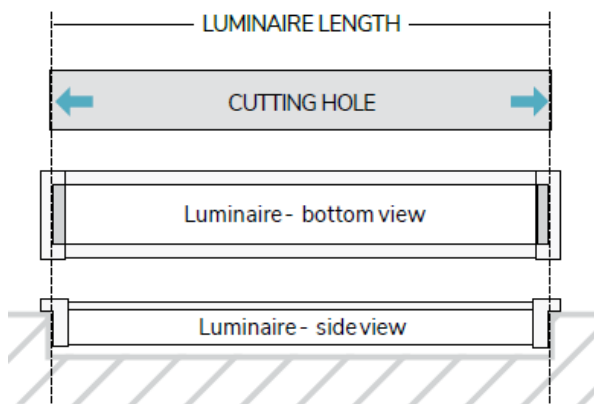

AN EXAMPLE OF INTEGRATION INTO YOUR DECOR

This recessed profile is designed to make the light source invisible. Its compact form factor permits a wide range of use. Made of 6063T-5 aluminum, our LED extrusions can be installed both indoors and outdoors. They can be painted to match your decor. Available in 4, 8 and 16 feet lengths to suit all your spaces. Our 86 series aluminum profile can accommodate a variety of white and colored (RGB-RGBW) LED strips.

FEATURES
