

**PERFECT FOR CABINETRY**

This compact recessed LED lighting profile is ideal for cabinetry and wood furnishing projects, offering both functionality and a sleek aesthetic. Designed to direct the light beam at a precise 25-degree angle, it provides focused illumination that highlights the contents of cabinets from the edge, enhancing both visibility and style. Its discreet design ensures it integrates seamlessly into furniture, fitting into a recess as shallow as 5/8 inch. This makes it a versatile solution for modern interior designs, combining practicality with a refined finish.

**FEATURES**

- Designed for recessed installation inside a 3/4-inch wide and 1/2-inch deep recess.
- Custom length by sections of 96 inches.
- Made of ALCOA 6063-T5 Aluminium alloy increasing heat dissipation.
